## Welcome Miss Bonnie

Hello!

My name is Bonnie Price and I'm very excited to be joining your school community next term. This is my fourth year of teaching, and I am very committed to creating an engaging, culturally proud classroom. I grew up in Cooktown and consider myself blessed to have been raised in such a special place. Over the last two years, my partner Joe (pictured) and I have been living in Central Queensland, but we know it's time for us to come home. We love Far North Queensland and can't wait to spend our weekends exploring beautiful Bloomfield and its surrounds with our dog, Moose. I'm looking forward to getting started and I can't wait to meet you all.

## Bloomfield River State School News

Thank you for a fantastic term 2, full of learning and engagement. We finish the term with an attendance rating of 75.3% which is ok - it would be great for attendance to be far higher than this.

Next term we see the school go back to three classes. Melissa Shepherd has won the position of Laura State School Principal. Bonnie Price (originally from Cooktown) will replace Melissa. Due to extensive enrolments in the grade 4/5/6 grade, Miss Trish will now be placed within the senior room and the Prep/1's combine. So, our term 3 classes are as follows:

- Prep/1 - Miss Rachel
- Grade 2/3 - Miss Bonnie
- Grade 4/5/6 - Miss Jo and Miss Trish

Miss Melissa, we wish you all the best at Laura State School as the new principal there. We look forward to you handing us the Soccer Trophy later in the year 😊. Thank you for all you have done for our school Melissa. You will be missed by staff and students alike. Congratulations!

**Bread Fruit**-One of the most important plants (known as "canoe plants") brought to Hawai'i by the ancient voyaging Polynesians is the breadfruit tree. This beautiful tree played a major role in colonizing the Pacific and was a key staple food.

Sir Joseph Banks, who sailed on HMS Endeavour with Captain Cook to Tahiti in 1769, recognized the potential of breadfruit as a food crop for other tropical areas. He proposed to King George III that a special expedition be commissioned to transport breadfruit plants from Tahiti to the Caribbean. He is quoted as saying:

"regarding food, if a man planted 10 (breadfruit) trees in his life he would completely fulfill his duty to his own as well as future generations..."

This set the stage for one of the grandest sailing adventures of all time. The ill-fated voyage of HMS Bounty in 1787, under the command of Captain William Bligh, is an extraordinary tale of mutiny, deceit, courage, and sailing skill.

Bread fruit can be eaten as chips, baked, fried, boiled like potatoes. Prepared and eaten like potatoes. Grated, mashed or sliced. Dip chips in sour cream and sweet chilli sauce. Mashed and mixed with lemon and avocado for dip or spread, also add tin fish or meat & chopped onion salt N pepper to mash for a spread. The ripened fruit was eaten as a custard.

The wood was used to make canoes and huts, bark to make mozzie nets and male flowers used in a insect repellent.

Bread fruit grows well in Wujal area and has plenty fruit for bama to eat. Good healthy mayi. Enjoy this fruit or vegetable.

The humble bread fruit. The skin of the fruit is removed before or after cooking. The white flesh is like potato and eaten, used like potato. You may have eaten it with corn beef and white sauce.
